Directors' Report
And Financial Statements

For the Year Ended 31 December 2009

The $\,$ Directors are pleased to announce our final results for 2009 which for the

first time include 12 months trading from our acquisition of Nirvana Engineering

(Stafford) Limited in March 2008. You will see from the key performance $\left(\frac{1}{2} \right)$

indicators in the directors' report that:

- Consolidated turnover has increased by 13% on last year.
- Consolidated profits before tax have increased by 62% on last year.

In the current year the turnover of the combined companies is 15% up, after the first quarter, when compared to last year.

We are still expanding organically and geographically. Further acquisitions

currently being sought would repeat another quantum leap in earnings. However,

with or without an acquisition, we expect to achieve double digit earnings growth in the current year.

Needless to say, the Directors are delighted with the results and the timely acquisition of Nirvana.

In the light of this excellent increase in profits, the directors are pleased to announce an increase in the final dividend of 50% to £21,000 (2008)

£14,000).

Mr W Boardman - Chairman

Date: 25 May 2010

The directors have pleasure in presenting their report and the financial

statements of the group for the year ended 31 December 2009.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

Mechan's principal activity continues to be the research & development in, and

manufacture of, electronic safety switches, control units and monitoring devices ${\bf control}$

to provide the safeguarding of personnel and machinery, whilst it's subsidiary,

Nirvana Engineering (Stafford) Limited's principal activity is to provide

manufactured structures for the safe and secure storage of back up power systems $\,$

within a niche market sector.

The group's key performance indicators for the year were as follows:

GROUP KEY PERFORMANCE INDICATORS

The directors wish to highlight that after tax earnings per share have increased

from 8.4p in 2008 to 15.04p in 2009.

ENVIRONMENT

The group recognises the importance of its environmental responsibilities, $% \left(\frac{1}{2}\right) =\frac{1}{2}\left(\frac{1}{2}\right) +\frac{1}{2}\left(\frac{1}{2}\right) +$

monitors $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) +\left(1\right) \left(1\right) +\left(1\right) \left(1\right) +\left(1\right) \left(1\right) +\left(1\right) \left(1\right) +\left(1\right) +\left(1\right) \left(1\right) +\left(1\right) +\left(1\right) \left(1\right) +\left(1\right$

reduce any damage that might be caused by the group's activities. Initiatives

designed to minimise the group's impact on the environment includes the safe

disposal of waste and reducing energy consumption.

FUTURE DEVELOPMENTS

The group continues to develop its relationship with its $\ensuremath{\,\text{key}}$ customers and

support them with a flow of new products through our research and $\operatorname{development}$

efforts. Our business model of a global network is in place and requires support

in the form of new products, keen prices and responsive services. The group

continues to expand its global network with various strategic partners. This

network has a value in itself and the more products that are passed through, the greater that value becomes.

We have exceeded our first quarter growth targets for the current $% \left(1\right) =\left(1\right) +\left(1\right) +$

order intake up by 15% year on year. Despite these trying times with lower

interest charges we nevertheless expect profits to increase during the current

year by double digit figures. The group will continue to diligently seek further $\,$

bolt on opportunities.

RESULTS AND DIVIDENDS

The profit for the year, after taxation, amounted to £300,754. Particulars of

dividends paid are detailed in note 10 to the financial statements.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The group's operations expose it to a variety of financial risks that include

the effects of changes in price risk, liquidity risk and credit risk.

The group's principal financial instruments comprise cash deposits, bank loans

and invoice discount financing together with trade debtors and trade creditors ${}^{\circ}$

arising directly from trading.

Price risk

There is always pressure on prices in what is a competitive and international

market. Movement in exchange rates can make a difference of 10% to prices.

However, prices are raised appropriately in line with customer expectation,

competition and the cost of living index. This has not lead to a loss of

customers in the past. During the year the fall in the pound has generally been beneficial.

Liquidity risk

As part of our acquisition financing, the group now uses invoice discounting

plus a core 4 year senior term loan and a commercial mortgage on the $\,$

Skelmersdale building. We are in the happy position that all our banking

covenants for each of these facilities are being met after the first twenty four months.

Credit risk

We operate normal credit terms and this is specified in some cases in the

distribution agreement. The group only has one customer which causes a problem $\ \ \,$

by taking longer than appropriate and in this case deliveries are put on stop $\ensuremath{\mathsf{S}}$

until the credit taken is brought below the agreed level. This is monitored closely.

As a result of the foregoing, the directors are satisfied with the results of

the group for the year and expect the general level of activity and $% \left(1\right) =\left(1\right) +\left(1\right)$

profitability to increase in the forthcoming year.

RESEARCH AND DEVELOPMENT

The range of switches has more than trebled since the company was acquired 10

years ago. This has been achieved as a result of our extensive and intensive

research and development efforts. A constant R & D effort is necessary to retain

a leading edge in Mechan's hi-tech field.

Nirvana has developed two new products which are currently being prototyped and

patented and will probably be ready by the second half of 2010. All new lines of

potential development are investigated by the company in order to support its

customer base. These new products will enhance our efforts to penetrate further

into export markets.

DIRECTORS

The directors who served the company during the year were as follows:

Mr W Boardman - Managing Director Mr M F Farrah - Technical Director Mr P K Knowles - Sales & Marketing
Director
Mr J Faulkner - Non Executive
Director
Mr R Parkinson
Mr R W Shaw

MARKET VALUE OF INTERESTS IN LAND

The directors consider that the market value of interests in land and buildings $% \left(\frac{1}{2}\right) =\frac{1}{2}\left(\frac{1}{2}\right) +\frac{1}{2}\left(\frac{1}{2$

as at 31 December 2009 was £150,000. The net book value of land and buildings in

the financial statements is £65,480.

POLICY ON THE PAYMENT OF CREDITORS

It is the group's policy that payments to suppliers are made in accordance with

the terms and conditions agreed between the company and its suppliers, providing

that all terms and conditions have been complied with. The group had $58 \, \mathrm{days}$

purchases outstanding as at 31 December 2009, based on trade creditors $\,$

outstanding at that date and purchases made during the year.

DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Directors' Report and the

financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each

financial year. Under that law the directors have elected to prepare the $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

financial statements in accordance with United Kingdom Generally Accepted

Accounting Practice (United Kingdom Accounting Standards and applicable law).

Under company law the directors must not approve the financial statements unless $\frac{1}{2}$

they are satisfied that they give a true and fair view of the state of affairs

of the company and the group and of the profit or loss of the group $\mbox{ for }$ that

year. In preparing those financial statements, the directors are required to:

- * select suitable accounting policies and then apply them consistently;
- * make judgements and estimates that are reasonable and prudent;
- * state whether applicable UK Accounting Standards have been followed, subject
- to any material departures disclosed and explained in the financial

statements;

 * prepare the financial statements on the going concern basis unless it is

inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are

sufficient to show and explain the group's and company's transactions and

disclose with reasonable accuracy at any time the financial position of the

group $% \left(1\right) =\left(1\right) +\left(1$

Companies Act 2006. They are also responsible for safeguarding the assets of the $\,$

group and hence for taking reasonable steps for the prevention and $\mbox{\tt detection}$ of

fraud and other irregularities.

In so far as the directors are aware:

- * there is no relevant audit information of which the group's auditor is unaware; and
- * the directors have taken all steps that they ought to have taken to $\mbox{{\rm make}}$

themselves aware of any relevant audit information and to establish that the

auditor is aware of that information.

The directors are responsible for the maintenance and integrity of the corporate

and financial information included on the company's website. Legislation in the $\ensuremath{\text{c}}$

United Kingdom governing the preparation and documentation of financial

statements may differ from legislation in other jurisdictions.

DISABLED EMPLOYEES

It is group policy that disabled people should have the same consideration as $\ensuremath{\mathsf{as}}$

others for job opportunities. Depending on their skills and abilities, they

enjoy the same career prospects as other employees and the same scope for $% \left(1\right) =\left(1\right) +\left(1\right) +$

realising their potential.

EMPLOYEE INVOLVEMENT

During the year, the policy of providing employees with information about the $\ensuremath{\mathsf{L}}$

group has been continued through regular meetings in which employees have also

been encouraged to present their suggestions and views on the group's

performance. Regular meetings are held between local management and employees to $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

allow a free flow of information and ideas.
